

Honey bee

The bees love the flower,
And also, they have got a special power.

They flap their tiny wing,
But they don't love to sing.

They never say, "Today is so sunny",
Because they have to bring sweet honey.

They are always disciplined and never
create a mess,
And we can't say, "The honey is so useless".

They live in a honey comb,
And do not run like a bull goes drome.

They never stop their duties in any season,
we should learn not to stop our work for
any reason.

In my memories, they will never be the last,
And we should also do our work very fast.

Dedicated to all honey lovers.
