

Simplicity

When the morning light caresses your face with a soft touch,

You have to remind yourself that you are no longer in yesterday's sad touch.

It is important to feel the happiness of food that is homemade and nutritious,
And to make you and your body feel vivacious.

You have to enjoy on winter days the simple pleasure of hot chocolate,
And snuggle yourself on a soft couch with a warm blanket.

After seeing a successful and stable life makes you admire yourself,
But always remember the people who were there when you needed help.

Spending a memorable time with your friends and family can make you feel better,
And helping the needy will always give you something good in return, may it be now or later.

Whatever the situation maybe, always handle it with felicity,
And how much you are rich always live your life in simplicity!
